Acoustiflect

Dear Graeme,

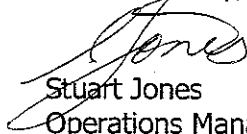

I write on behalf of Orchestra Victoria to express our sincere thanks to you and your team for the manufacture and delivery of 20 *Acoustiflect* panels for our recent venue upgrade in Melbourne, Australia.

The quality design and workmanship of the panels has lifted the standard of our space both acoustically and aesthetically.

Acoustiflect's ease of operation, adjustability and mobility has meant we are able to quickly alter and fine tune the set-up of our venue to better accommodate the diverse range of orchestral activities we undertake. Thanks also for your willingness to make variations to the top panel to meet the specific lighting challenges of our venue.

Needless to say, the Orchestra's ability to rehearse in an environment improved by *Acoustiflect* is paying real dividends and we would be happy to recommend this product and your level of customer service to other organisations.

Yours sincerely,

Stuart Jones
Operations Manager
Orchestra Victoria
Melbourne, Australia
